

Website Testing Form - Aleena Sharif

<http://www.aleenasharif.co.uk/>

Questions (please answer as many as possible)

-Usability (UI) - clarity and readability? I.e did the font style or size make it difficult to read something?

-User Experience (UX) - I.e was it easy to click on links/buttons? Accessibility (especially if you are visually impaired)?

-What message does the website portray - what is the site about/its purpose?

-Have you ever seen a website or project similar? Is there anything they do better/we could take inspiration from? Please provide a link if possible.

-What interested you the most about the website?

-How/where did you find my website or find out about me?

-Search bars and filters/special functions all working as expected?

-Mobile view on your device - what phone do you have (iOS or Android)?

-Do you know anything about SEO/web optimisation - if so, any tips/tools appreciated!

-Any broken links? Redirect issues? Timeouts or errors? Issues?

-Suggestions and feedback? Any features you would like to see added?

If possible please test every page, click all buttons/links and try different combinations at random. Try to find issues and errors that need fixing.

Please email aleenasharif187@gmail.com back with a completed version of this form in .word format. Alternatively, you can also paste your answers directly in an email.

If you have any questions or anything else, let us know. Thank you!
